Sustainable Consumer Goods Trading Business

For sale is a young trading business operating in the sustainable consumer goods sector. The business model focuses on sourcing eco-friendly products and distributing them through online channels with potential for retail expansion.

The product portfolio includes environmentally responsible everyday products made from sustainable materials. The brand is positioned within the growing market for conscious and eco-driven consumption.

The business offers strong potential for expansion in direct-to-consumer e-commerce, marketplace integration, and B2B partnerships. Suitable for entrepreneurs looking to enter or expand within the sustainable commerce sector.

Flexible transition arrangements possible.
