Gastronomy

Search:

BRAINSTORMER/ Project partner (gastronomy is welcome)

I would like to exchange ideas - without obligation and with an open mind - with interested and motivated people about possible, feasible projects in the greater 80000 area and the surrounding area?

Trend/Priority: Gastronomy

With a first, concrete project with a unique selling point and presumed "win win advantage and potential" I have been pregnant for a long time. I would also like to exchange ideas and advise on this.

Who is interested in discussing ideas, 'seriously spinning around' and seeing what comes out of it? People with experience in the gastronomy industry are welcome - but not a must. The will to create a meaningful project counts.

If an idea has a hand and a footing, I'm interested in getting something off the ground. Real teamwork, I'm less of a lone fighter.

I look forward to hearing from you or you.
