Event technology

Co-Founder / Entrepreneurial Partner wanted for international touring and event production company

I am currently building up a growing production company in the field of event technology, touring and event production and am looking for an entrepreneurial partner with a commercial or strategic background for the next stage of development.

I have been working in the international event and music industry for over 20 years and have technically accompanied and implemented numerous tours, festivals and productions during this time. This has resulted in its own production structure, which today realises complete technical productions "from lighting design to sound, video/LED and SFX to complete production planning.
