Well-running taxi company for sale

For sale is an established and well-running taxi company with many years of activity and a stable customer base.

The operation currently includes 9 taxis and 2 rental cars, which are used in the ongoing business. The company is fully equipped and can be continued by the new owner without interruption.

In addition to the classic taxi operation, the company has regular orders in the field of school trips as well as replacement scheduled trips for bus companies, which ensures stable and predictable capacity utilization. In addition, there are other fixed trips and regular customers.

The existing structure, vehicles and concessions make the company ideal for entrepreneurs who want to take over an existing operation or expand their current business.
