

Offer Giving away business

Event companies, rental of event modules

About us

We are a long-established company that specializes in the rental of high-quality Carrera track facilities and racing simulators. Our focus is 99% on the B2B sector. We serve customers at trade fairs, corporate events, family days and exclusive evening events in Germany, Austria and Switzerland.

Our market position

By specialising in technologically and visually unique racetrack systems, which have been continuously developed over 15 years, we are one of the leading premium suppliers. Our facilities clearly stand out from the competition and, as timeless event modules, are independent of trends. We occupy a niche in which we operate almost unrivalled due to the quality and variety of our systems.

The offer

In the course of restructuring as a UG, we are looking for an operational partner.

Participation: You receive 20% of the company shares without the need for equity.
