Offer Corporate participation, firm participation

## **Programmer for Internet shop**

I am planning an Internet shop with pictures for apartments, business premises and doctors' offices and restaurants (canvas on frame, posters, photo wallpapers, aluminum composite).

As an experienced graphic designer with more than 30 years of experience in design and large-format printing, I prepare decorative images for all areas where atmosphere and cosiness are important. I use image databases or my own photos and my own designs as sources.

More than 2000 motifs are already prepared - they are waiting to be included by you in a modern Internet shop. In addition to preparing the shop, it will also be your task to make the entire offer visible on the common portals.

For this purpose, I am looking for a programmer for WooCommerce (or similar) to install the shop, upload the images, constantly maintain the shop structure and advise on/and carry out suitable IT advertising measures.
