## Look for Corporate sales, firm sales, sales **Property management**

Our company is active in the field of managing the real estate portfolios of a family office. In the course of this activity, we have built up our own property management company and have already successfully taken over another property management company.

For further strategic expansion, we are specifically looking for property management companies and suitable companies in the North Rhine-Westphalia area that are eligible for cooperation or takeover.

Our focus is on the sustainable expansion of our administrative portfolio and the integration of regionally established structures.

If you are interested in a confidential and non-binding exchange, we look forward to hearing from you – by phone or video conference.

### [Corporate sales](#)

Region 50, Germany

Entry in own name
