Monster Card Game

Shortly before our social media campaign, we are still looking for a participation, financing in the range of just 7000 euros.

The card game is haptic and not an online game. The campaign is scheduled to start at the beginning. The monster card game is intended to enable socially disadvantaged families to send their children on vacation with half of the proceeds.

Sales launch via Kickstarter is scheduled for the winter.

Since we unfortunately have hardly any capital except creativity, we politely ask here.
