

The big business marketplace

Business for sale more than 15 years

ID 27220

Offer Corporate sales, firm sales, sales **Uninterruptible power supplies**

Turnover: 5,500,000 € (average of the last 4 years)

EBIT: €680,000 (adjusted)

Prospective buyers: entrepreneurs, corporate groups and investors

The main focus of activity of the company to be sold is the sale of uninterruptible power supplies, the project planning of implementation and commissioning. In addition, the Research & Development department deals with customer-specific adaptations of solutions based on uninterruptible power supplies.

Founded in the 1990s, the company has since been committed to providing its customers with a trouble-free power supply. Thanks to the experience and special knowledge of the employees, all requirements, from simple to very complex, can be implemented. One focus is on the individual conception of the projects and the associated well-founded advice to customers.
