

The big business marketplace

Business for sale more than 15 years

ID 27365

Offer Corporate sales, firm sales, sales

Field-service software

For sale is a production-ready, multi-tenant B2B operations platform for small and medium-sized trades, building-services and field-service companies. It combines lead and customer management, quotes, digital order acceptance, scheduling, mobile time tracking, documentation, invoicing, e-invoicing foundations and accountant handover. The complete asset deal includes the proprietary source-code snapshot, database schema and ordered migrations, tests, operational tooling, product assets, documentation and a limited handover. The verified scope includes 109 application routes, 82 data models, 81 migrations and 25 test files. Legal entity, customer contracts or data, MRR, production data, credentials, personal accounts, domains and existing cloud accounts are excluded. No external customer base or recurring revenue is claimed. Asking price EUR 50,000, negotiable.
