

Look for Franchise, license

Shipping agency

I am looking for a silent partner for my start-up as a franchisee with a focus on shipping and packaging service, copying and digital printing, mailbox service and etc.

Amount of capital required: EUR 130,000.

I myself has been working as an employed center manager for half a year and was involved in the planning and construction in advance. This means: I know the concept, the suppliers, the cooperation partners, prices, costs, sales, employees, etc. and know that this business is successful.

I would be happy if a partner who wants to invest his money safely and profitably and at the same time gives me the opportunity to build a life for my family.

Detailed business plan incl. earnings forecast and liquidity plan is of course available. However, a written declaration of confidentiality due to my situation is absolutely necessary.
