ID 6796

Offer Corporate co-operation, firm cooperation

Software Developer and – manufacturer Business Intelligence

The Company advertised here is the German Subsidiary, which is under Construction, of a medium-sized software House from a western EU member country, which holds a market-leading Position in its Home Country. The Mother is looking for Entry into the German Market and a strategic Partner, which in particular has a strong Distribution.

The Company develops and creates Software Products for integrated success, balance sheet and Financial Planning, as well as for company Valuation. The German Version of the Program is marketable; The first Reference Customers are available.

The Areas of Application are diverse. However, the Focus is on automated Year-end analysis, short-and medium-term business Planning, Metric Analysis and Company Valuation. The Software is Able to make Consolidations.

The Program has its own Database.
