

The big business marketplace

Business for sale more than 15 years

ID 7250

Look for Corporate financing, investor

Charity Shopping

A unique and meaningful e-commerce business model has a capital requirement of €1,125,000.

Even in the start-up phase, the company can already represent entrepreneurial success and needs capital in order to continue and expand its business activities. The financial resources are used for the technical and design development of an e-commerce portal, as well as for the development of the company organization. Personnel, sales and marketing measures are in the foreground.

An executive summary can be submitted after reviewing your request. Business and financial plans are also available if there is serious interest.

This offer is especially aimed at investors who have a social and sustainable attitude and can demonstrate a social and sustainable attitude. The exact participation options are often shown in a confidential conversation.
