Established Film Production

As an established Film production, we offer You as Part of the Realization of a concrete Film project:

Acceptance Of a Final loan amount €7,500 Maturity 3 months

To a very attractive Fixed Rate.

The Installation of several Margins of €7,500 Each is possible.

With Project Progress and ongoing Exploitation of Film production, we will adjust the Conditions.

We have been operating successfully since 1992-also in the Erotic sector-have realized Film productions in Europe and overseas and have used the Licenses.

We need debt capital to realize an erotic Telenova (FSK 16), which will also be Published as an adult version. This Format requires the day-to-day Production of new Episodes and thus, at the beginning, a great Deal of investment, which we cannot cope with on our own.

The Interest of Customers in the Film Series can be substantiated in writing.
