Look for Corporate financing, investor

Bremen Solar Factory

In order to Set up a solar Factory In , we are looking For a Financial Partner starting at 100,000 Euros.

Solar Thin-film Modules are to be produced that have a cost and Raw material advantage over the Standard modules. (No Dependence on Photovoltaic silicon/20 % cheaper)

In Addition, this Technology offers the Advantage that at very high Temperatures and in difus light (typical for Germany) the power Output is up to 14.1% higher than with the Standard Modules

Quick:

Location:

Capacity: 5 to 6 MW

Investment Volume: EUR 15 to 20 Million

Profit in e: EUR 2.5 Million

Profit in e: € 3.5m

Opportunity for participation possible in the long term as well as in the short term (12 Months)

We hope for serious Inquiries and open-minded Interested Parties.

We prefer the personal Conversation!
