Look for Corporate participation, firm participation

## **Center for Complementary Medicine**

Participation for the establishment of a centre for complementary medical measures, initially outpatient, later also inpatient, sought. Priority is given to the principles of salutogenesis under scientific supervision. The first target group is children with disabilities of all kinds.

A seminar centre is attached.

A property is available, but still requires numerous renovations. Business plans are currently being created.

An active participation of doctors and therapists is offered. Financial participation is desired, but is not a prerequisite.
