Security and security services

We are looking for medium-sized guards and security companies on behalf of one of our clients nationwide.

The employees must be informed in accordance with Section 34 of the Security and Security Services, and also certified plant protection specialists/specialists for protection and safety must be part of the group of employees. Companies must be highly valued in quality, reliability and customer-oriented action.

Characteristics of activity:

Property security services, radio strip services, factory protection, reception services, guarding of private property and residential facilities, as well as trade fair and event protection.

Dog squadron may be included.

In the case of an existing emergency call control centre(s), we require recognition of the VdS, although emergency call and/or service control centres are not absolutely necessary.
