Look for Corporate financing, investor

Bank foundation

We have acquired a European banking licence and have already received the first project enquiries.

We are only looking for - 150,000,- Euro - to start up our banking activities in the short term.

The capital is repaid monthly in 10% repayment sans. The last 2 months are the return payments, so that a return of - 20 percent - results for the lenders.

Due to costly delays in setting up the bank, we need the above sum. We are also happy to accept small sums of capital, it does not have to be a single investor. As shown, the capital is only needed for one year.
